

AIRCRAFT FINANCE AND LEGAL STRUCTURES

Planning requires knowhow

We evaluate and present valid financing and insurance options. We have in-depth knowledge and experience that can leverage with a customer's banking and financing relations when a corporate aircraft finance solution is required. Often, high-net-worth individuals don't have to justify cost or needs. On the other hand, corporate governance usually requires detailed and auditable documentation of business purpose and ROI of an aircraft. The aircraft manufacturing and sales markets have procedures to report suspicious financial transactions during the purchase or sale of an aircraft.

Get Finance - Preserve Capital – Save Taxes

Many Aircraft Finance solutions allow preserving capital through efficient and cost-effective planning. NEXXUS Aerospace Ltd. gives state-of-the-art comprehensive consulting and can arrange measure-tailored financing. We know how to get results negotiating with lenders. Our industry expertise enables us to structure integrated financial solutions that help leverage the maximum value of capital. We further specialize in helping borrowers with current troubled aircraft loans including refinancing, and financing for aircraft acquisitions.

Our planning includes and examines the tax consequences of an aircraft. Most aircraft owners have a financial team and legal advisors. But special knowhow of NEXXUS Aerospace Legal and Finance Advisors is in addition and close cooperation needed: Only the right operating structures properly balance the competing areas of law to meet an owner's requirements.

This allows effectiveness from a tax perspective, and maximizes the possible income tax deductions including aircraft depreciation, while avoiding limitations.

Usually Income tax deductions result only from the use of an aircraft in a commercial environment. Tax deductions are not available for personal or hobby use. It is key that the aircraft be properly integrated into a business structure in full financial and legal compliance. Then, and only then the cost of use are reasonable, auditable business expenses ownership mode.

NEXXUS Trust

Our expertise and relationship network enables us to structure integrated financial solutions that help leverage the maximum value of a customer's capital, while providing a process that is hassle-free. An aircraft can be purchased without credit, but for tax reasons we recommend funding through a Swiss company. We further specialize in helping borrowers with current troubled aircraft loans including refinancing, and financing for aircraft acquisitions. NEXXUS Aerospace Ltd. can arrange this through its Swiss Trust branch NEXXUS Trust Ltd.
